SUMMARY

Lead test automation engineer with 12 years of hands-on experience building and scaling QA initiatives across enterprise fintech, SaaS, and complex microservice systems. Proven ability to architect test automation from scratch, mentor teams, and integrate modern AI tools into testing workflows. ISTQB Certified Test Manager with expertise in test strategy, CI/CD infrastructure, and quality leadership. Also serve as Board Member and Lead Expert with USQB, overseeing ISTQB course accreditation standards.

Core technical competencies: test automation frameworks (Playwright, Cypress, Nightwatch.js, Selenium), UI and API testing (REST, GraphQL, gRPC), mobile testing (iOS/Android), CI/CD setup (GitHub Actions, GitLab CI), cloud platforms (AWS), and databases (SQL, DynamoDB, MongoDB). Actively integrating AI tools (Copilot, Claude Code, self-healing test agents) into daily development and testing workflows.

TOP SKILLS

- Test Automation (Playwright, TypeScript)
- AI-driven Testing and Test Automation (Copilot, Claude Code)
- Test Management and Team Leadership

CERTIFICATIONS & LANGUAGES

Certifications: ISTQB Certified Software Tester (Advanced Level – Test Manager), ICAgile Certified Professional, Claude Academy (Introduction to Model Context Protocol; Claude Code in action)

Languages: Ukrainian (Native), English (Full Professional)

EXPERIENCE

Svitla Systems, Inc. — Senior Test Automation Engineer

April 2025 - Present

- Maintaining and extending test automation suite (Playwright, GraphQL, UI/API tests, GitHub Actions)
- Working in AWS infrastructure (DynamoDB, CloudWatch, Lambda, S3) with focus on scalability and observability
- Using AI tools (Copilot) in daily development and testing workflows
- Clarifying requirements and accepting features for release across multi-location, Kanban/Scrum teams

N-iX — Lead Test Automation Engineer

July 2020 - March 2025 (4 years 9 months)

- Built test automation from scratch for microservice-based web app: UI, API testing/mockings (REST, gRPC, WebSocket/SocketIO), and visual testing with GitHub Actions and Docker
- Automated testing of mobile apps (iOS, Android) using detox, Appium, react-native; mentored automation engineers on framework design and best practices
- Tech stack: TypeScript, Playwright, Jest, Mocha, GitLab CI, GitHub Actions, BrowserStack

Ciklum – Lead QA / Test Team Lead

July 2010 - June 2020 (10 years)

- Introduced QA function to customer's organization; led QA teams coordinating efforts across SCRUM teams
- Led group of 7+ testers; drove innovation in test techniques (ACC modeling, pairwise testing, exploratory testing)
- Hands-on testing: Web GUI (SaaS, iOS), technical testing (API, database, log analysis), performance testing (JMeter), automated testing (Nightwatch.js, Cypress, Selenium/C#)
- Mentored and coached team members on test process improvement and quality metrics

Earlier roles: Sr. Test Engineer, Infopulse (2007–2010) • Head of Documentation & Analytics, Frontex (2004–2007) • Project Manager / Support Manager / Web Developer, TopProgs (2002–2004) • Web Developer, AlarIT and Business Computer Service (2000–2002)

EDUCATION

Zaporizhzhya National Technical University – Master of Computer Applications, Software Engineering (1998–2003)
